

INTERSTATE MANUFACTURING COMPANY INC.

Interstate Manufacturing Company, Inc. provides Design, Fabrication and Industrial Supply solutions to government agencies and prime contractors for the purpose of fulfilling urgent as well as long term requirements and occupies a modern 10,000 square foot facility.

CAGE CODE: 3CSK7

**IMC is registered with CCR, ORCA and the SBA and conducts business under the following NAICS codes:
333514 332439 332710 332721 333511 333513 54142**

INTERSTATE MANUFACTURING COMPANY

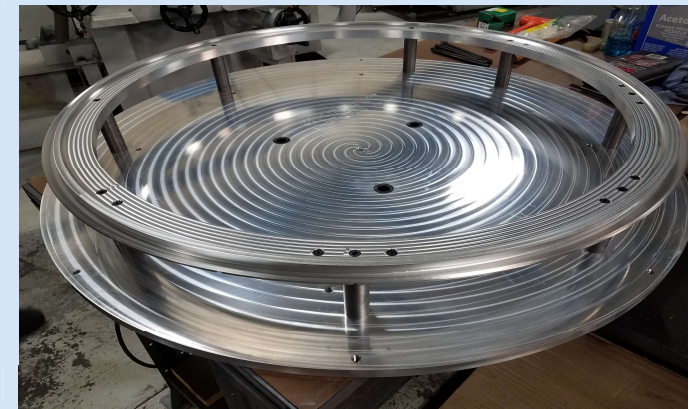

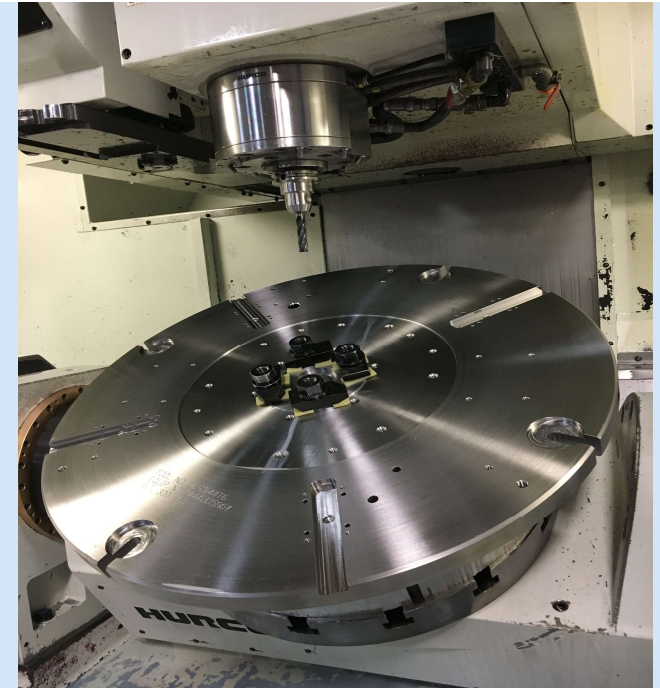

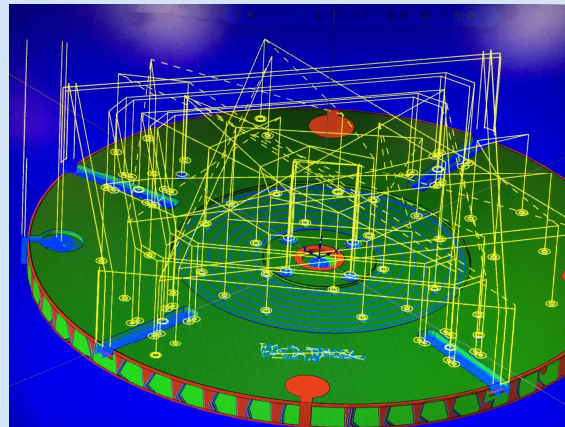

Interstate Manufacturing Company, Inc. provides Design, Fabrication and Industrial Supply solutions to government agencies and prime contractors for the purpose of fulfilling urgent as well as long term requirements and occupies a modern 10,000 square foot facility.

Let us offer a Quote for your specific application. We offer Tool Design, prototype or production CNC Machining, Tool & Die making services, 3D printing / Rapid Prototyping, Reverse Engineering services as well as CMM Inspection and Laser Scan-to-CAD services.

In house Welding & Fabricating services are now offered to compliment our Machining services and to reduce lead times.

Travel to and from Interstate Manufacturing is easy and convenient. Located in Agawam, Massachusetts, IMC has immediate access to Interstates 91 and 90 (aka the Massachusetts Turnpike) and is only minutes from Bradley International Airport in Connecticut.

MACHINING & QUALITY

Our Machining Services offer our customers a variety of choices to meet their needs for custom Designed and Fabricated Tooling, Fixturing and Industrial Equipment. We utilize the latest MasterCam software for programming parts from CAD models provided by our customers. Our CNC Machines can accurately manufacture parts made from materials such as Stainless Steels, 4140, 6061-T6, Delrin, G10 and Hot or Cold Rolled material to name a few. Our Tool Making service can provide tight tolerance assemblies such as Machining Fixtures, Welding Fixtures, Inspection Gages, Hydroform Dies, Manual or Motorized Transportation Trunnion Assembly Carts and Load Tested & Certified Lifting Devices for the purpose of machining, forming, inspecting, transporting & safely moving our customers parts or assemblies.

Contact us for an estimate or to discuss your next project.
